Meryl Sublime Main Properties

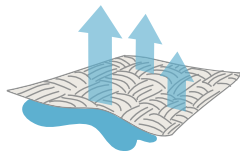

Certified by Meryl[®] Lab

Multifilament Comfort

Meryl Sublime has been made with the finest filaments ever produced; they can be as thin as 0,45 DPF*, providing a high level of ultimate comfort.

*Dtex per Filament

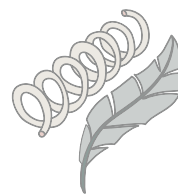

Freshness

Meryl Sublime quickly draws perspiration away from the skin to the exterior of the fabric for evaporation.

Lightness

10 Km of Meryl Sublime can be as light as 26 grams, providing extremely light and comfortable fabrics.

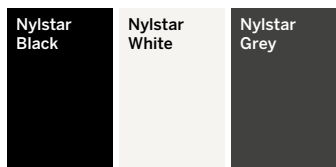

No Pilling

Thanks to the twisting process, fabrics made with Meryl Sublime avoid pilling effects without giving up softness. Up to 24 twists per meter.

A must for Intimates

In October 2013, Nylstar's General Manager visited the headquarters of an important lingerie brand in New York. He showed some fabrics made with Meryl FDY 44f96 to the Technical Materials Director. When she touched the fabric, she closed her eyes and said: "Wow!...This is really Sublime".
